SUBJECT { GENERAL OBUSL  
SPECIFIC Basic Plan

1. The attached basic plan is being forwarded to <sup>THE</sup> field for your consideration and comments. This suggested plan attempts to establish through provocative measures and for a limited period of time a favorable situation for Albanian defections. It is our belief that the actions recommended can be conducted largely within the framework of OBUSL.

2. Although the success which could be realized cannot be definitely determined, it is our belief that the implementation of this plan would be well worth the nominal time and effort required even if it resulted in only one or two defections of the Aleko Rimli variety. If you consider the plan favorably and your present workload precludes printing leaflets suggested at the Athens Station, we wish to inform you that it would be possible to have them prepared here.
